MARKET GARDENERS'  
Price List of Choice Select  
**VEGETABLE  
S E E D S**

BURWELL'S X-TRA FLAT DUTCH.

**E. E. Burwell,**  
Burwell Street, New Haven, Conn.  
**1903.**

# Does Quality Count With You?

QUALITY IN SEEDS, brings  
QUANTITY AND QUALITY IN  
THE CROP.

My seeds have given universal satisfaction to the most critical Gardeners' for many years. My practical experience as Farmer, Market Gardener and Seed Grower, impresses upon me the fact that *the best is none too good* for the planter, and therefore take great care in selecting and improving all varieties. All seeds offered by me have been grown and selected with the utmost care, to have all varieties pure and true to name.

## AND I WILL GUARANTEE

that all seeds sold by me shall be as represented; should they prove otherwise, I will fill the order gratis. But I cannot guarantee more than this, or guarantee the crop in any way, as there are so many causes over which I have no control, that, let seeds be ever so fresh, weather and other circumstances may cause a total failure.

For many years I have made a specialty of Market Gardeners' Seeds, grown from selected seed stock. The importance of following this system for the production of choice vegetables is familiar to all gardeners; if the vegetable from which seeds are grown are inferior or impure, so will be their product.

PERFECTION OF QUALITY WITH ME IS OF THE FIRST IMPORTANCE.

I make no charge for packing. Bags charged at cost price only.

Half a bushel will be supplied at bushel rates, half a peck at peck rates, one-half pound at pound rates. Orders for less than one-half peck or one quarter pound will be charged at quart and ounce prices.

When seeds are to be sent by mail, in larger quantities than packets and ounces, postage must be added at the rate of 8 cents per pound, or 15 cents per quart for Peas and Beans, and 10 cents for Corn.

# GENERAL LIST

—OF—

## SELECT VEGETABLE SEEDS

—FROM—

**E. E. BURWELL,**

BURWELL STREET,

NEW HAVEN, CONN.

<b>Extra Early Dwarf Erfurt.</b> Select stock.....	.20	2.00	7.50

### CABBAGE

The Cabbage crop is one of the first in importance with the Market Gardener, and its success or failure is due in a large measure, to the seed used. The only consideration is "Where can the best seeds be procured?" To meet the demand made on us for this class of seed, we are paying special attention to its production, and to secure the best seed, we select fully developed heads, such as are absolutely perfect.

	Oz.	¼ Lb.	Lb.
<b>Large Jersey Wakefield.</b> The best, large early variety, <i>choice</i> .....	.25	.75	2.75
<b>Burpee's All Head.</b> The best for second early and very late planting. <i>Choice</i> stock .....	.25	.75	2.75

## Burwell's Special Formula Fertilizers.

For all crops and soils, and mixed to order from best materials only. I have had over 30 years experience in using Fertilizers and Chemicals, mixing and manufacturing my own Fertilizers, and testing them with the leading brands on the market, and on different crops and soils.

At the earnest solicitation of my customers I have furnished them with my special mixtures for several years, and always (in favorable seasons) with the *very best satisfaction*. In buying *special* Fertilizers for your crops you are buying just the amount of plant food that that particular crop requires, *as near as can be calculated*, to carry it from start to finish; no more, no less. And right here is where "experience is the best teacher:" it *must* be in the right form to give *best results*.

### Fertilizing Materials and Chemicals

Always on hand. Special prices given on application, correspondence solicited.

## Special Low Prices on

**Freeman Sons' Wind Mills, Feed Cutters, Ensilage Cutters,  
Feed Grinders, Fanning Mills, Corn Shellers, Etc.**

### Pure Paris Green.

In packages,  $\frac{1}{4}$  lb. 10c.  $\frac{1}{2}$  lb. 15c. 1 lb. 25c. C. T. Reynolds Brand  
Warranted perfectly pure.

## The Deming Kerosene Sprayers.

For mechanically mixing kerosene and water. These sprayers are the best now on the market. The "Success" Sprayer, made by the Deming Co. is a bucket pump, having a copper oil tank, improved combination foot rest and bucket clamp, four feet of discharge hose and Bordeaux nozzle. This oil tank, which is removable, has an indicator which can be placed to use from 5 to 50 per cent. of oil. For lice on plants, cattle and poultry, cabbage worms, San José scale and all scale insects, use a Kerosene sprayer.

### Rubber Hose.

The very best quality 3 and 5 Ply Hose in the market at lowest prices. Also Hose Nozzles, Hose Bands and Menders, Hose washers, Hose Couplings, Lawn Sprinkler, Lawn Mowers, Lawn Fertilizers, &c. Can save you money on these goods.
